Results-driven Software QA Engineer with 3+ years of experience in web, mobile, and API testing. I specialize in ensuring software quality through both manual and automated testing, including functional, performance, and stress testing. I take ownership of the full testing lifecycle — from planning and writing test cases to execution and reporting — and mentor junior team members along the way.

WORK EXPERIENCE

Middle QA Engineer — International Bank of Azerbaijan (ABB)

August 2025 – Present · Baku, Azerbaijan

Automated software testing with Gauge, alongside manual and API testing, to keep releases reliable — on-site in Baku.

Junior QA Engineer — Azintelecom

September 2024 – August 2025 · Baku, Azerbaijan

Wrote test cases in Jira and API tests with Postman, conducted code reviews with the team, and tested live sites to find and report issues.

Mentor (Teaching Assistant) — Baku Design Center

May 2023 – July 2024 · Baku, Azerbaijan

Taught new technologies while developing and maintaining web applications with C#, ASP.NET Core, REST API and MySQL — designing features and debugging alongside students.

Manual QA Engineer — Israil Azerbaijan Training Center

February 2023 – July 2023 · Baku, Azerbaijan

Wrote bug reports and test plans in Jira, analyzed requirements and production-support documentation, and ran manual UI test cases.
